

1. What is your name?

Brock Francom

2. During today's meeting we attempted to resurrect and maybe refine our concepts of some statistical population parameters. Please write a paragraph that describes how that attempt influenced your conceptions of statistical population parameters.

I felt like I understood a little more about the mean, and what it meant. Mainly, my understandings of the statistical population parameters was reinforced, and it helped me to understand more clearly the uses and backgrounds for each.

3. Smile.
